

JEREMY FOLTZ

tuscaroratechnology.com

I love to build high value and well-crafted software solutions. I currently build solutions with Microsoft Dynamics CRM (2011-365). I implement and provide customization support. I also integrate external systems into Dynamics CRM using Scribe Insights. These external systems could be stand-alone applications or custom built ASP.Net applications that connect directly to Dynamics CRM. I have some experience with integrating Microsoft Dynamics AX to Dynamics CRM. I currently work fully remote and find that I'm most efficient in this team scenario.

EXPERIENCE

PERIOD	September 2014 — Present	
EMPLOYER	Planet Technologies, Inc	Mechanicsburg, PA
JOB TITLE	Senior CRM Developer	
TECHNOLOGY	Microsoft Dynamics CRM 2011,2013,2015,2016, 365, CRM SDK Applications, ASP.NET 4.5, JavaScript, Scribe Insights, Microsoft Dynamics AX
